EDUCATION

FAIR AND SUSTAINABLE?!

WIN A TRIP TO OULU, FINLAND!

Education is the key to the equitable development of **urban society**. Across the entire education chain, from early childhood education to lifelong learning, we want to **address issues** of educational equity and **find solutions**

- which focus more on individual needs and requirements, including access to technology,
- which contribute to greater equality,
- which communicate educational content in a sustainable manner.

We are looking for participants to work with us on our **education challenges**.

Sign up now! We are happy to welcome you.
